

ACKNOLWDGING THE USE OF AI TOOLS

Acknowledgement and Explanation of AI Use
Part A: What are the conditions of AI use specified for this assessment in Blackboard
The ethical use of AI tools like ChatGPT is permitted for idea generation and research only. All work must be written in your own words, and any other use of AI tools is strictly prohibited. You must acknowledge content sourced from these tools.
Part B: Concise summary of AI use in the assessment.
Very briefly [typically about 1 page] explain the ways that you have used AI in the production of this assessment.
• Explain which AI tools you have used and for what purposes. • If you have found and used tools on your own, explain why these tools were selected and provide a URL link to the tool. • Note the number of iterations undertaken with each main AI collaborative tool. • Describe what output from the tool/service has been included, and where • Summarise how you have altered, adopted, or built on the AI output.
<i>In addition to using this summary to provide an overview of how AI has been used, it is strongly recommended that you also carefully document the processes undertaken in creating the assessment and to be able to present this process evidence upon request from educators or administrators.</i>
Consistent with the instructions for this assessment, outlined in Part A above, I used AI in the following ways and take full responsibility for the content submitted for the assessment. The submission demonstrates my human capacities and good academic practices, and my abilities to think and work for myself and/or to think and work with AI and other collaborators.
I used AI in the following ways:
I used <ADD AI tool> (<ADD link if needed>) to <ADD how used> (<ADD number> iterations/drafts). I modified the outputs in <ADD ways>.
<Students to insert very brief explanation of AI tool(s) and how used>
<Students to list the prompts used and provide screenshots of prompts>

Reflection on AI use in the assessment.

Briefly reflect on what you learned through collaborating with AI tools in the production of this assessment.
[100-200 words]

Rahman :

I did not used.

Nazrin:

I did not used.

Tofiq :

I did not used.

Group Assessment Academic Integrity Declaration

We, the undersigned, declare that the work submitted for this assessment is the original work of our group and complies with the university's academic integrity policy. We understand that:

- All group members have contributed to the development of original ideas, and no part of the submission has been copied or derived from external sources without appropriate acknowledgment.
- Academic misconduct, including but not limited to plagiarism, collusion with other groups, and any form of cheating, is strictly prohibited.
- The ethical use of AI tools and technologies to support idea generation or research is permitted, provided that all AI contributions are properly acknowledged and cited.

We acknowledge that any detected instance of academic misconduct, either by an individual or the group, will result in a score of **0 (zero)** for the entire assessment. In severe or repeated cases, it may lead to **failure** of the course or further disciplinary action as determined by the university.

By signing this declaration, we confirm that we have read, understood, and agree to abide by the terms outlined above.
